CUSTOM COLOR & IMPRINT

Keep Your Brand in Front of Customers All Year Long with Custom Imprinting

The Megapro Tools brand represents premium quality and will show your customers and clients that you do too. We offer both a co-branded option, where your logo is put on the other side of a branded Megapro driver, and a private label option where only your logo is shown on the driver.

Original (15-in-1 and 8-in-1) Ratcheting and Pocket Drivers are all available for imprinting.

Need more options? Private label drivers can be built with customized: handle color, cap color, imprint color, and bitload (view page 2 for available bit options)

MOQ's apply. Contact your account manager for more details.
